

Time – Quality - Cost - Dynamic Framework

- Increase Quality: Δ Time – Cost Dynamic
- Increase Time: Δ Quality – Cost Dynamic
- Increase Cost: Δ Quality – Time Dynamic

- Decrease Quality: ∇ Time – Cost Dynamic
- Decrease Time: ∇ Quality – Cost Dynamic
- Decrease Cost: ∇ Quality – Time Dynamic

Time: Is the time you contribute or the time taken for the whole project

Quality: The level of aspiration you have for the lasting affect of the work

Cost: Is the cost of our time and the work required to achieve your outcome
